

# DEMAND DRIVEN FACILITY

The project “Support to Free Movement and Migration in West Africa” (FMM West Africa) aims to boost the development potential of free movement and migration in West Africa.

Its Demand Driven Facility for National Institutions (DDF) addresses existing institutional gaps and migration capacity building needs in ECOWAS Member States and Mauritania.

DDF actions provide tailored technical assistance to sharpen migration management capacities, and reinforce the implementation of ECOWAS migration policies at the national level.

FMM West Africa is funded by the European Union and the ECOWAS Commission. It is implemented by the ECOWAS Commission, the International Organization for Migration, the International Centre for Migration Policy Development and the International Labour Organization.

## FMM West Africa

Support to Free Movement of Persons & Migration in West Africa

### DDF OBJECTIVES

Deliver tailored technical assistance to national institutions of ECOWAS Member States and Mauritania

Reinforce the implementation of ECOWAS migration related policies and decisions at the national level

### DDF TECHNICAL ASSISTANCE

The DDF provides technical assistance in the following areas:

- Border Management
- Labour Migration
- Counter-Trafficking
- Related policy development and implementation

### DEMANDE D'ASSISTANCE

National institutions can submit requests for assistance to FMM West Africa

This project is funded by the European Union and ECOWAS
